## SCREAM

**Dedicated to great - grandfather Novica  
Kraljević**

Under the strange roof  
kneeling implacably  
a prisoner of himself  
with a crucified heart  
in the height of pain  
surrounded by a tight group  
surrounded by minds  
that are full of hatred  
in the shadow of weeds  
without thought they moved Balkan  
the nucleus of eternal suffering  
because his panorama was spacious  
the glow of the candle was extinguished  
in trying to escape  
people thirsty for blood  
the heart is kneeling before the mind  
under your own roof  
in listening to recognise the scream.
